

MAGO

MAKE THE DIFFERENCE

NEW TECHNOLOGIES

A futuristic cityscape with glowing blue lines and circuitry. The background features a dark blue sky with vertical lines of light. In the foreground, there are several horizontal lines of light that resemble circuitry or data paths. The overall aesthetic is high-tech and digital.

AUTOMATED & UNMANNED SHOPS

Autonomy in modern retail represents an exciting opportunity to leverage advanced technology to create a more convenient, personalized, and efficient shopping experience for customers.

SELF-SERVICE, COST-EFFECTIVE AND OPTIMALLY AUTOMATED SHOPPING

STEP UP TO A HIGHER LEVEL OF RETAIL

Minimise shop and on-site staff costs. **NEXTO Store** is an innovative shop formula that allows you to create a **fully selfservice sales channel by creating clusters of 8-10 outlets**. It also guarantees the optimisation and automation of sales processes and merchandising with low investment.

- combining an e-commerce channel and traditional sales
- obtaining a turnkey solution
- 24-hour sales
- personalisation and customisation of shop equipment and functionality
- easy and quick relocation

ELEVATE YOUR RETAIL GAME WITH NEXTO DISPLAY

SEAMLESS, AUTOMATED, AND SECURE SELF-SERVICE SHOPPING

Increase your revenue and allow your customers even more convenience with **Nexto Display**, an innovative self-service shop system. Automated and mobile, our system is secure and in line with the latest shopping trends. **Increase your competitiveness and allow your customers a fast, hassle-free and secure shopping experience.**

Nexto Display:

- the launch of sales in two temperature zones, ideal for fresh products such as bread or sandwiches
- no handling costs, flexible assortment selection
- automation of sales and stocking processes

OPTIMIZE YOUR LOGISTICS WITH NEXTO SELECT

Optimize your warehouse and logistics processes. **NEXTO Select** allows for the creation of a **fully automated sales channel**, ensuring secure customer interaction and reducing the risk of fraud committed against retailers. This is the perfect solution for companies looking to **increase their efficiency and optimize their warehouse and logistics processes through the use of automation and robotics in retail**.

- the combination of e-commerce channel, traditional sales and intelligent vending
- flexible assortment selection
- automation of sales and stocking processes
- 24/7 availability

EFFORTLESS DELIVERIES 24/7

The **NEXTO Click & Collect** is a secure and convenient solution for the pickup and return of packages. **It is a modern parcel locker that is perfect for urban spaces and is available 24/7.**

The NEXTO Click & Collect can be placed in public places such as shopping centers, railway stations, or supermarkets. **With its durable and weather-resistant construction, the NEXTO Click & Collect can be used in a variety of environments.** Additionally, the parcel locker has been equipped with a module for accepting cash and card payments.

The universal size of the parcel locker allows for the placement of various package sizes. The Click & Collect is a efficient and flexible solution for managing deliveries and returns of goods.

PHYGITAL RETAIL, E-COMMERCE & BRICK-AND-MORTAR

MERGE TOGETHER STRONGER THAN EVER

Attract e-commerce customers to your brick-and-mortar store. **NEXTO Locker for Fashion allows customers to shop both in-store and online, as well as return products and quickly receive items directly to the fitting room instore.**

Unlike other companies creating networks of parcel lockers, NEXTO Locker for Fashion allows for the handling of non-standard-sized items.

Nexto Locker for Fashion:

- can be customised and personalised to the specifics of the goods being dispensed and the look and feel of the shop
- the distinctive, individual branding of the product allows it to be easily recognised
- modular construction allows easy customisation
- versatile use of materials (wood, glass, Corian)
